QUARTERMASTER GENERAL'S REPORT.

STATE OF WEST VIRGINIA,
QUARTER MASTER GENERAL'S OFFICE,
Wheeling, December 31*st*, 1863.

To His Excellency, A. I. Boreman, Governor:

SIR:—I have the honor to make the following report of the operations of this Department, from September 23d, (the date of my appointment,) to December 31st, 1863, inclusive. When I entered upon the duties of this office, Thomas Hornbrook, Esq., Military Agent for your Excellency, had charge of the property of the State. At different times he has turned over to me, by your order, all the property reported as received in the statement herewith transmitted, marked "D." With the exception of (415) four hundred and fifteen light French rifles and accoutrements, and (20,000) twenty thousand elongated bullet cartridges, cal. 58 in., transferred by Col. Dan l Frost; (400,000) four hundred thousand elongated bullet cartridges, cal. 69 in., received from John B. Butler, M. S. K., at Allegheny Arsenal, Pittsburgh, Penn'a, and (500) five hundred smoothbore muskets, found at the court house in this city.

The light French rifles and Belgian rifled muskets and accoutrements, are new and in a serviceable condition. The remainder of the property, with some few exceptions, has been more or less used, and many of the guns are broken and entirely worthless.

The arms found at the court house, were issued to the militia, and when not in use, thrown into the basement of the building, where they became entirely unserviceable from rust. I have had them properly cleaned, and they are now in a serviceable condition. The statement herewith transmitted, marked "A," showing the issues to West Virginia regiments in the service of the United States, were made to arm and equip the 4th regiment of cavalry, they not having been armed by the United States authorities. The guns were issued by your agent prior to the 23d of September. After that date, one company was armed with Smith's carbines, and the remainder of the regiment furnished with accoutrements for the arms already issued. The property (statement "A,") has been reported to the Ordnance Department at Washington, as issues to the United States, and credit asked for the same. As yet, no reply has been

534553

received. Statement "B," issues to independent companies of scouts in the service of the State. It will be seen that these companies have been armed with one of the most effective guns now in use.

Statement "C," issues to the militia of the State. This statement includes the issues to several companies of volunteer militia in the service of the State, but attached to some regiment of militia.

The expenses of this Department, as shown by statement "E," have been greater than I anticipated, owing to the high rents that I have been compelled to pay for warehouses, and necessary expenditures incurred in organizing this Department.

I regret to report to your Excellency, the impossibility, on my part, to report the number and condition of the arms in the hands of the militia. No papers have been furnished this office, from which a statement could be made; and the Regimental Quartermasters, who have been ordered to report, have not done so, or have rendered very imperfect ones.

I am, Governor, Very Respectfully, your Ob't Serv't,

GEO. W. BROWN,

Q. M. Gen'l, W. Va.

REPORT

OF THE

QUARTERMASTER GENERAL,

OF

WEST VIRGINIA,

FOR THE YEAR 1864.

WHEELING:
JOHN F. M'DERMOT, PUBLIC PRINTER.

1865.

REPORT

OF THE

QUARTERMASTER GENERAL.

QUARTER MASTER GENERAL'S OFFICE,
WHEELING, January 16th 1865.

His Excellency,
A. I. BOREMAN,
Governor of West Virginia.

Governor :—As required by the laws of this State, I have the honor to submit my report as Quarter Master General, Commissary General of Subsistence, and Chief of Ordnance, for the year ending December 31st, 1864.

No Quarter-master's Stores have been purchased since my last report.

Clothing, Camp and Garrison Equipage, and Subsistence, have been furnished to the Troops in the service of this State upon requisitions approved by your Excellency, by the United States Depot Quarter Masters and Commissaries of Subsistence, under an order from the Secretary of War, dated Washington D. C., August 26th, 1863—a copy of which is herewith transmitted in the appendix, Schedule A.

Schedule B. Exhibits the amount of Quarter-masters Stores, and Clothing, and Camp, and Garrison Equipage on hand December 31, 1864.

The Militia of the State have been called into service by your Excellency a number of times during the year, and while in camp, have, by order of the Secretary of War, been furnished with transportation and supplies by the United States Depot Quarter Masters and Commissaries of Subsistence. However, when called into service, some of the forces were at a distance from any United States Post, and could not at once be furnished with the necessary supplies; the officers were, therefore, compelled to purchase supplies for the immediate wants of the men. As yet these accounts have not been paid.

During the year the Militia and State Troops have been armed and supplied with ammunition.

A detailed statement of Ordnance and Ordnance Stores, received, issued, and remaining on hand may be found in the appendix in the following order :—

Schedule C.—Abstract of Ordnance and Ordnance Stores received in the 1st quarter 1864.

Schedule D.—Abstract of Ordnance and Ordnance Stores received in the 2d quarter 1864.
Schedule E.—Abstract of Ordnance and Ordnance Stores received in the 3d quarter 1864.
Schedule F.—Abstract of Ordnance and Ordnance Stores received in the 4th quarter 1864.
Schedule G.—Abstract of Ordnance and Ordnance Stores issued in the 1st quarter 1864.
Schedule H.—Abstract of Ordnance and Ordnance Stores issued in the 2d quarter 1864.
Schedule I.—Abstract of Ordnance and Ordnance Stores issued in the 3d quarter 1864.
Schedule J.—Abstract of Ordnance and Ordnance Stores issued in the 4th quarter 1864.
Schedule K—Statement of Ordnance and Ordnance Stores received, issued and remaining on hand in the 1st quarter 1864.
Schedule L.—Statement of Ordnance and Ordnance Stores received, issued, and remaining on hand in the 2d quarter 1864.
Schedule M.—Statement of Ordnance and Ordnance Stores received, issued and remaining on hand in the 3d quarter 1864.
Schedule N.—Statement of Ordnance and Ordnance Stores received, issued and remaining on hand in the 4th quarter 1864.

With some few exceptions the Ordnance and Ordnance Stores now on hand, are in serviceable condition.

From the best information that I have been able to obtain there are at this time some 8000 rifles and muskets in the hands of the different military organizations of the State. Of these, there are in the hands of the first Division of Militia 5466—distributed as follows :—

1st Brigade, General W. L. Crawford—composed of the counties of Hancock, Brooke, Ohio and Marshall,	882.
2d Brigade, General A. S. Core—composed of the counties of Tyler, Wetzel, Pleasants, Wood, Ritchie, Doddridge and Wirt,	1369
3rd Brigade, General E. C. Bunker—composed of the counties of Monongalia, Marion, Harrison, Taylor and Preston,	3215

The remainder of the arms are in the hands of the State Troops, and home Guard Companies in the border counties of the State, where the militia are not organized.

The arms with which the militia are furnished, are of a very inferior quality. This deficiency has been remedied to some extent during the year, by issuing new arms to some of the Regiments.

Since my last report, several lots of arms and equipments have been captured and destroyed by the enemy, the most important of which was 309 muskets, captured and destroyed by the rebel Colonel Witcher at Buckhannon, in August last.

Schedule O, exhibits the different sums that have been paid for transportation, rent of ware-rooms, services, &c., amounting to $2711 69. Of this sum $2054 41 has been paid out of the appropriation of $2000 for contingent expenses of this office.

Schedule P, exhibits the amounts that have been paid, by order of your Excellency, out of the appropriation of $50,000 for procuring arms, equipments, munitions of war, &c., made by the Legislature, by the act of July 2d, 1863 and increased to $60,000 by the act of March 2d, 1864. Of this amount ($59,943.19) Fifty-nine thousand nine hundred and forty-three dollars and nineteen cents, has been expended.

A statement of Quarter-master's stores, and Ordnance and Ordnance stores received and issued by Thomas Hornbrook, Esqr., military agent for your Excellency, from June 20th, 1863, to September 23d, 1863, compiled from abstracts and vouchers on file in this office, may be found in the appendix, Schedule R.

By an act of the General Assembly of Virginia, passed February 3d, 1863, it was enacted, "That all property real, personal, or mixed owned by or appertaining to this State, and being within the boundaries of the proposed State of West Virginia, when the same shall become one of the United States, shall thereupon pass to and become the property of the State of West Virginia." I have, therefore, thought proper to give a statement of the arms received and issued by Thomas Hornbrook, Esqr., military agent for His Excellenoy, F. H. Peirpoint, Governor of Virginia, from the date of the organization of the restored Government of Virginia to the 20th of June, 1863, which may be found in the appendix, Schedule S, T, & W, for which information, I am under obligations to Mr. Hornbrook.

I have endeavored in this report to give as near a correct statement of the number and condition of arms, equipments, and the property of which I have had charge as it has been possible for me to make. I prepared proper blanks for returns, and forwarded to each of the commanding officers of Militia Regiments, requesting reports of all State property pertaining to the Militia, within the bounds of their respective regiments, but many of these returns were very incomplete, and required considerable time and trouble to get into proper shape. There no doubt remains in the State a considerable number of arms which are not accounted for in this report. Although I have endeavored, as far as possible, to obtain reports of all such. These, however, are scattered over the State in small lots, and perhaps are of a very inferior quality, some of which were issued to Volunteer companies before the organization of the Restored Government.

Very Respectfully,
Your Ob't Serv't,
GEORGE W. BROWN,
Col. and Q. M. Gen'l.

APPENDIX.

SCHEDULE A.

ADJUTANT GENERAL'S OFFICE,
WASHINGTON, D. C., Aug. 26th, 1863.

Respectfully submitted to the Secretary of War. In accordance with orders of the 24th inst., endorsed on a letter of the Governor of Virginia, dated Aug. 21st, I have respectfully to report as follows: As the companies proposed to be raised by the Governor are not to be mustered into the U. S. service, strictly speaking, issues of clothing and subsistence could not be legally made. It is evident, however, from the liberal legislation relative to raising volunteers within States, that some latitude in such issues may properly be allowed, but the accounts of such issues should be carefully kept distinct from those made to troops mustered into the U. S. service, in order that a settlement may be made between the United States and the State, if it should become necessary hereafter.

The following regulations are, therefore, submitted for the government of such issues to the State Troops of West Virginia.

Should His Excellency, the Governor of West Virginia, raise several companies of troops to be paid by his State, he is hereby authorized to make, or approve, requisitions on the nearest Depot Quarter-master and Commissary of Subsistence of the United States as may be necessary for those companies.

The Quarter-masters and Commissary of Subsistence, who issue upon these requisitions, will keep a seperate account of such issues, reporting them to the Chief of their respective Departments, as issues made to State Troops of West Virginia, by order of the Secretary of War.

The Quarter-master General and the Commissary General of Subsistence will give orders to the proper officers of their Departments, in accordance with this regulation.

(Signed) E. D. TOWNSEND, A. A. G.

Approved by the Secretary of War, Aug. 29th, 1863.

War Department, Adj't Gen'l Office, Aug. 31st, 1863.

(Signed) THOMAS M. VINCENT, A. A. G.

Dec. 9th, 1863. (Official.)

REPORT

OF THE

QUARTERMASTER GENERAL

OF

WEST VIRGINIA,

FOR THE YEAR 1865.

WHEELING:

JOHN FREW, PUBLIC PRINTER.

1866.

STATE OF WEST VIRGINIA,
QUARTERMASTER GENERAL'S OFFICE,
WHEELING, JAN. 1, 1866.

His Excellency A. I. BOREMAN,

Governor of West Virginia:

GOVERNOR—The act of the Legislature passed July 23, 1863, creating the office of Quartermaster General, gives the entire control of all Quartermaster and Commissary stores, and of the Ordnance and Ordnance stores of the State to that officer, subject only to the order of the Governor. The same act requires the Quartermaster General to report to the Governor at least once a year. As such, I have the honor to submit the following report of the operations of the Quartermaster, Commissary and Ordnance Departments for the year ending Dec. 31, 1865.

In the discharge of the different organizations of State troops, a large amount of labor devolved upon this Department. Settlements had to be made with the different officers for Ordnance and Ordnance stores, Quartermaster's and Commissary stores, and for captured property. By direction of your Excellency, it also became my duty to pay many of the organizations.

The clothing, camp and garrison equipage, Quartermaster's and Commissary stores necessary for the use of the State troops prior to the 20th of July, (at which time the last company was discharged,) were drawn from the U. S. Depot Quartermasters and Commissaries of Subsistence, under an order from the Secretary of War, dated August 26, 1863, a copy of which may be found in my last annual report.

By request of Capt. J. G. Farnsworth, Chief Quartermaster Department of West Virginia, I turned over, at different times, to Major R. S. Gardner, A. Q. M. at this Post, the following clothing, camp and garrison equipage, on hand and received from the different officers of State troops when their commands were discharged the service:

(45) Forty-five pairs trowsers, infantry,
(73) Seventy-three pairs drawers,
(86) Eighty-six wove shirts,
(3) Three great coats, infantry,
(41) Forty-one sack coats, lined,
(29) Twenty-nine pairs bootees,
(59) Fifty-nine hats,

(576) Five hundred and seventy-six wool blankets,
(34) Thirty-four camp kettles,
(56) Fifty-six mess pans,
(305) Three hundred and five haversacks,
(9) Nine pairs stockings,
(9) Nine painted blankets,
(36) Thirty-six rubber blankets,
(84) Eighty-four canteens,
(136) One hundred and thirty-six tent pins.

This property was originally drawn from the U. S. authorities by the officers of the Guards, and the State is entitled to credit for the same on the books of the Quartermaster General's office, U. S. A.

After the 20th of July, when all the troops in the service of the State had been discharged, it was found that a much smaller supply of ammunition than I then had on hand would be sufficient to meet any emergency that might arise. I, therefore, with the consent of the Chief of Ordnance U. S. A., shipped a large amount to the Allegheny Arsenal, at Pittsburg, Pa., retaining only some two hundred and fifty thousand (250,000) rounds of different calibre. I have also shipped to the arsenal at Pittsburg, a large number of unserviceable arms, which had accumulated in the State Arsenal since the commencement of the war. This was thought to be the best disposition that could be made of the arms, as they were originally drawn from the U. S. Government, and had they been broken up, the amount realized from their sale would scarcely have paid the necessary expenses incurred in selling them.

I received from the officer in charge of the arsenal, proper receipts for all the property turned over by me. I have collected, as far as possible, since the close of the war, the arms, equipments, etc., in the hands of militia and State troops. There still remains a large amount of ordnance and ordnance stores scattered over the State. These I am collecting as rapidly as circumstances will permit.

For a more detailed statement of ordnance and ordnance stores, received, issued and remaining on hand in each quarter, I would respectfully call your attention to Appendixes A to M, inclusive, herewith transmitted.

A large amount of labor has been performed in the arsenal during the year by the convicts in the penitentiary.

Out of the appropriation of twenty-five hundred dollars ($2,500,) made by the last Legislature for contingent expenses of this office, I have certified to the Auditor for payment, during the year, claims for transportion, rent of warerooms and powder house, services,

printing, stationery, drayage, traveling expenses, &c., amounting to twenty-four hundred and thirty-one dollars and seventy-eight cents ($2,431 78,) leaving the sum of sixty-eight dollars and twenty-two cents ($68 22) of this appropriation unexpended.

Provision was made by the last Legislature for the payment of Company C, 133d Regiment of Militia, which was captured by the rebels at Centreville, Upshur county, W. Va., on the 12th day of September, 1863.

By direction of your Excellency, I gave notice for the Company to meet me at Buckhannon on the 16th day of June, at which time I paid the twenty-three (23) surviving members of the Company, and a majority of the personal representatives of the forty-five (45) who died in Southern prisons, all having since been paid with the exception of seventy-eight dollars ($78) due the personal representatives of Adam Peck, deceased, which amount remains in my hands, no application having been made for the money. The amount drawn from the Treasury for this purpose was six thousand nine hundred and fifty dollars and eighty-five cents ($6,950 85.) Of this amount twenty-nine dollars and eighty-one cents ($29 81) was paid by mistake from the appropriation for the payment of State Guards.

There has been paid to the different organizations of State troops, since my last Report, out of the appropriations for the payment of State Scouts and State Guards, the sum of one hundred and thirty-five thousand two hundred and forty-one dollars and sixty-six cents (135,241 66.) A statement of the amount paid to each company, and the time for which payment was made, may be found in the Appendix.

That application might be made to Congress to reimburse this State for the amount paid to the State Scouts and State Guards for services from June 30th, 1863, to July 20th, 1865, I have caused, by direction of your Excellency, copies of all muster and pay rolls to be made. This was necessary from the fact that many of the original rolls were very much torn, blotted and worn out, so much so that they can scarcely be read. These copies are herewith transmitted.

In Appendix P may be found a complete abstract of all the payments, giving the time for which each payment was made, amounting to two hundred and thirteen thousand nine hundred and eighty-eight dollars and forty-two cents ($213,988 42.) It will be seen that some of the amounts here reported differ from the amounts drawn from the Treasury for the payments. This is accounted for by the fact that many accounts for hauling, medical services, etc.,

were paid at the time the companies were paid, and funds drawn from the Treasury to cover these accounts. On other rolls deductions were made from the pay of the commanding officer for money received for captured property sold by him.

In order to have copies of the rolls made I found it necessary to employ a clerk to perform the work, whom I was compelled to pay out of the appropriation for contingent expenses of my office, no other funds being under my control.

I have paid into the Treasury three hundred and forty-three dollars and forty cents ($343 40) on account of captured property, and there still remains in my hands six hundred and forty-eight dollars and thirty cents ($648 30.) Besides this, some of the commanding officers of companies were authorized to pay for hauling supplies out of any funds in their hands arising from the sale of captured property, and in some instances stoppages have been made upon the pay roll of the company against the officers and men on account of property sold.

I am aware that this report is imperfect in many respects. I have not had the health or time to bestow upon it that care and attention that it should have received; the facts and figures, thus briefly set forth are, in the main, correct.

I cannot close this report without returning thanks to the different officers of the Quartermasters' and Commissary Departments of the United States Army who have been stationed within the State during the last two years, for their uniform courtesy and kindness, and my acknowledgments are especially due to those officers stationed at the Posts of Wheeling, Parkersburg, Charleston, Clarksburg and New Creek, and to Captains A. V. Barringer and J. G. Farnsworth, Chief Quartermasters, Department of West Virginia.

I have the honor to be,

Very Respectfully,

Your Obedient Servant,

GEORGE W. BROWN,

Colonel and Quartermaster General.

STATE OF WEST VIRGINIA,
ADJUTANT GENERAL'S OFFICE,
WHEELING, January 1, 1867.

His Excellency,

ARTHUR I. BOREMAN,

Governor and Commander-in-Chief:

GOVERNOR: I have the honor to transmit herewith, as required by law, my Annual Report as Adjutant General and Quarter-Master General, for the year ending December 31st, 1866.

I have the honor to be,

Very Respectfully,

Your Obedient Servant,

GEORGE W. BROWN,

Adjutant General and Quarter-Master General.

ADJUTANT GENERAL'S REPORT.

In this Report, I shall endeavor to make a brief and plain statement of the operations of this office from the date of my predecessor's last Annual Report to the present time.

The arduous duties of this office were discharged in a very able, efficient and faithful manner by my predecessor, General FRANCIS P. PEIRPOINT, from the formation of the State to the 10th of last September, at which time your Excellency accepted his resignation. On the first of November, I was appointed to fill the vacancy caused by General Peirpoint's resignation, and at once entered upon the discharge of the duties of the office, continuing at the same time to discharge the duties of Quarter-Master General.

At the date of my predecessor's last Report, the Sixth Veteran Cavalry Regiment was the only organization from this State remaining in the service of the United States. At that time, it was doing service in the Territories of Colorado and Dakota, guarding the Overland mail route. The Regiment was several times engaged with the Indians, and was highly complimented for its gallantry. Every effort had been made to have this organization mustered out of service prior to, and after it was ordered West, but this was not accomplished until the 22d of May last, when the Regiment was mustered out at Leavenworth, Kansas; arrived at Wheeling on the 25th, and received their final pay and discharge on the 29th of the same month. The muster-out was completed before the Report of the Adjutant General for last year was printed, and in time to have the history of the Regiment compiled from the muster-out rolls, and added to that Report, making it, together with the Report of 1864, a complete history of all the organizations from the State.

Some of the soldiers from West Virginia have been engaged in almost every battle of the war, and all have sustained a high character for courage and daring.

The muster-out of the Sixth Veteran Cavalry Regiment completed the muster-out and final discharge of all the soldiers from this State who were called into service for the suppression of the rebellion.

The Report of the Provost Marshal General of the United States, made to the Secretary of War on the 16th day of March last,

exhibits the fact that West Virginia furnished to the armies of the United States, from April 16th, 1861, to June 30th, 1865, thirty-two thousand and three (32,003) men.

The office of Acting Assistant Provost Marshal General, and Chief Mustering and Disbursing Officer for the State, was discontinued on the 30th day of June, 1866, and Brevet Major George McGown, U. S. A., who succeeded Brevet Major E. P. Hudson in the discharge of the duties of that position, was ordered with the records of his office to Columbus, Ohio. The closing of that office, by the United States authorities, increased the business of this office to a very considerable extent, as a large amount of labor required in furnishing information to the several Departments at Washington, previously performed by Major McGown, was now transferred to this office, and in consequence my predecessor found it necessary to employ an additional clerk.

The vast number of applications made for information from the records of this office, in reference to the muster-in, place of credit, time and place of death, and muster-out of soldiers, in order to secure their bounties and pensions, goes far to prove the value of these records. Many applications for information in reference to the history of our soldiers are made by the different Departments at Washington, including the Adjutant General's Office, Surgeon General's Office, and Pension Office, showing at once the incompleteness of the records on file at Washington, and the greater necessity for the better preservation of the records connected with the muster-in, muster-out, and history of the Volunteers from this State, on file in this office. It is true, these records are not as complete as could be desired, Mustering Officers having, in many instances, failed to furnish this office with copies of the muster rolls, as required by the War Department.

The importance of these records to the soldiers cannot be estimated, and, undoubtedly, there should be on file in this office the muster-in and muster-out rolls of every soldier who has served in a West Virginia organization. I am trying to accomplish this important object, as far as possible, by securing copies of the missing rolls.

For the better preservation of the records, I have caused well-bound books to be prepared, in which I am now engaged in recording the name of each soldier, his rank and age, when and where enlisted, period of enlistment, when and where mustered into service; if re-enlisted, when and where, when re-mustered, period of re-enlistment, where credited, and any other information that can be obtained from the records of the office. To make a complete

history, or as complete as can be made, will necessarily require a very considerable amount of labor and research, especially when we take into consideration that there were over thirty-two thousand (32,000) men in the service from this State. When this record is completed, it will very much facilitate the business of this office, as it will present, in a convenient and compendious form, all the information in possession of the office relating to each soldier; and, at the same time, it will in a great measure obviate the necessity of referring to and handling the original rolls, many of which are becoming defaced and worn out from continued use.

The Legislature, at its last session, by a joint resolution adopted February 1st, provided, "That the Governor procure, or cause to "be procured, suitable medals, as tokens of respect to the officers "and soldiers of West Virginia who have served during the rebel- "lion in the service of the United States, containing upon one side "the name of the recipient, with his regiment, battalion or battery, "surrounded by a wreath; upon the reverse side, some appropriate "design and inscription; the medal to be suspended by a piece of "tri-colored silk ribbon; its artistic features to be equal to the "Crimean medal, and its cost not to exceed one dollar each. The "medals and inscriptions to be of four kinds:

"1. For the officers and soldiers of the Volunteer Army who "have or may be honorably discharged from the service.

"2. For the officers and soldiers who have been killed in battle.

"3. For the officers and soldiers who have died from wounds "received in battle.

"4. For the officers and soldiers who have died from disease "contracted in the service.

"The medals for the officers and soldiers who have been killed "in battle, or who have died of wounds or disease in the service, to "be delivered to the families of said officers and soldiers."

Some twenty-six thousand medals will be required to comply with the provisions of this joint resolution.

My predecessor, in making up the list of those who were entitled to medals, found it would be impossible to separate the third and fourth classes, as many soldiers who died in hospitals are simply designated on the muster-out rolls as "died," while it is fair to presume that many of them died of wounds.

It will be seen that injustice would have been done to some, if the provisions of the joint resolution, so far as it relates to the third and fourth classes, had been adhered to. The friends of some of those who died of wounds would have received medals of the

fourth class, or medals intended for the friends of the soldiers who died of disease. Upon consultation with your Excellency, it was thought best to consolidate the third and fourth classes, reducing the number of classes to three, and, at the same time, doing justice to the memory of all.

General Peirpoint, at the date of his resignation, was negotiating with parties in New York City, to furnish the number of medals required. In September last, by direction of your Excellency, I proceeded to New York with instructions to close a contract with these parties, if it could be done on favorable terms. General Peirpoint was in New York at that time, and went with me to see the parties with whom he had been corresponding, but they declined to furnish the medals for less than one dollar and fifteen cents each, which so much exceeded the amount specified by the joint resolution of the Legislature, that I felt unauthorized to award them the contract, but immediately made arrangements with two other parties to furnish designs and make bids for the work. The contract was finally awarded to A. Demorest, Esq., No. 182 Broadway, who is to furnish the whole number required for the sum of one dollar each.

The bars are to be the same for each class, with the exception that those for the first class are to contain the words "Honorably Discharged;" those for the second class, the words "Killed in Battle," and those for the third class, the words "For Liberty."

Upon an examination of the medals presented by the British Government to her soldiers for service in the Crimean war, referred to in the joint resolution of the Legislature, it was found that the name of the soldier, with his regiment, battalion or battery, was stamped on the edge of the medal, and instructions were given to have the medals for the soldiers of this State prepared in the same manner. This, and the combination of the third and fourth classes, are the only material changes that have been made from the designs specified in the joint resolution of the Legislature.

If no unusual delay occurs in the preparation of the dies, it is expected that the contractor will be able in a short time to furnish samples of the several classes of medals. The entire number will probably be ready for distribution by March or April next; and I would suggest the propriety of some action looking to their distribution, through the mails, free of postage. Congress, by a joint resolution, conferred upon the Adjutant General of Ohio the franking privilege, for the purpose of distributing the medals presented by the State of Ohio to her veterans. Could not similar action by Congress be obtained on behalf of West Virginia?

The office of Quarter-Master General was created by an Act of the Legislature, during the late war, to relieve, to some extent, your Excellency and the Adjutant General from some of the extraordinary duties required in raising and sending troops to the field, and in arming, equipping, subsisting and paying the State Guards and the Militia, when called into service to guard against threatened raids or invasions by the enemy. The necessity for which it was created having, in a great measure, passed away with the overthrow of the rebellion, I conceived it to be my duty to suggest the propriety of abolishing the office, or, at least transferring its duties permanently to the Adjutant General.

The Act of Congress, approved March 2d, 1803, provides, that "there shall be to the Militia of each State one Quarter-Master General." The best course to pursue, if consistent with law, would probably be to require the Adjutant General to perform the duties of Quarter-Master General, in connection with his duties as Adjutant General, at the same time keeping the two offices separate and distinct, making him, for this purpose, Acting Quarter-Master General, and placing at his disposal, a sufficient sum to enable him to employ an additional clerk, if he should find it necessary.

The Report of my predecessor, for last year, has been printed, and is now ready for distribution. I would respectfully call attention to that portion of it which refers to the Militia. He evidently has given this subject a great deal of careful consideration, and his recommendations, if adopted and carried out by appropriate legislation, would, I think, give us an efficient Militia.

If we change our present system of Militia organization, which is fundamentally defective, the present would probably be the best time to do so, as we could have the aid and experience acquired by our veterans in the late war to assist us in the re-organization.

If, however, it is thought best to make no radical changes in the present militia law, I think provision should be made, giving your Excellency power to appoint and commission an Adjutant for each county in which the militia has not been organized, whose duty it should be to divide the county into Company Districts, observing as far as possible in such division, township boundaries, and that he have power to enroll and organize each company; to superintend the election of officers therefor, and certify the result of the same to the Governor. That he also have authority, under the direction of the Governor, to letter the companies and form them into regiments; to superintend an election for regimental officers, and certify the result of the same; that he be required to furnish the Adjutant General with an alphabetical list of the names of all persons so

enrolled by him in each Company District, and a statement of the boundaries of each Company District, together with such other information as he may deem necessary, or the Adjutant General may require.

The present militia laws are so scattered through the Code and the Acts of the several sessions of the Legislature, that it is almost impossible for the officers of the militia to be provided with them. They should be collated and printed in pamphlet form, with forms for reports, certificates, orders, &c.

I shall not attempt to make a statement of the present strength of the militia force of the State, as in its present condition it would be impossible for me to do so.

No efforts have been made during the year to organize the militia, my predecessor supposing that material changes would be made in the militia system of the State at the approaching session of the Legislature, and the last Legislature having made no provision to pay the expenses that would necessarily be incurred in its organization.

The expenses of the office during the year, for stationery, printing, postage, &c., were ($318 11) three hundred and eighteen dollars and eleven cents, which amount was paid out of the appropriation for contingent expenses. This amount includes ($66 66) sixty-six dollars and sixty-six cents, which was paid for an additional clerk, whom it was found necessary to employ.

Before closing this report, I desire to express my thanks to Brevet Major George McGown, U. S. A., for official copies of important papers relating to the history of the volunteers from this State, and for other courtesies extended.

I would also call your Excellency's attention to the capable and faithful manner in which Mr. James E. Hanes, Chief Clerk in this office, has discharged his duties. I beg to suggest that the salary heretofore allowed him is altogether unequal to the labor and capacity required of the first clerk in this office; and also, that the clerical force allowed this office is inadequate to the labor that ought to be performed, and must be, if the work of completing the records of the office is to be finished within a reasonable period.

I have the honor to be,

Very Respectfully,

Your Obedient Servant,

GEORGE W. BROWN,

Adjutant General

REPORT

OF THE

QUARTER-MASTER GENERAL.

REPORT.

I have the honor to submit the following report as required by law, of the operations of the Quarter-Master, Commissary of Subsistence, Ordnance and Pay Departments, for the year ending December 31st, 1866.

No Quarter-Master or Commissary Stores have been received or issued.

A large amount of the Ordnance and Ordnance Stores in the hands of the militia, at the date of my last Annual Report, has been collected as exhibited by Appendix "A," attached to this report. Appendix "B" exhibits the property on hand the 31st day of December, 1865, the property received during the year, and the amount on hand at this time to be accounted for.

Many of the arms were of an inferior quality when issued, and for the want of suitable and safe places in which to store them while in the hands of the militia, they became unserviceable, and many of them entirely worthless.

I would suggest to your Excellency the propriety of breaking up and selling a considerable portion of the unserviceable arms and other State property, now in the State Arsenal.

As exhibited in my last Annual Report, I had in my possession on the 31st of December, 1865, the sum of ($648 30) six hundred and forty-eight dollars and thirty cents, arising from the sales of captured property. Since that time I have, by direction of your Excellency, disbursed the following amounts, there being no appropriation or fund out of which the same could be paid; and the justice of the claims having been fully established:

Feb'y	28.	Paid Captain William Ellison, for transportation while Captain of State Scouts	$205 40
"	28.	Paid Col. Henry D. Chapman, for transportation for State Guards	134 05
March	29.	Paid Dr. J. C. Kimball, for medical services rendered State troops	36 00
Sept.	11.	Paid J. R. McCutchen, Administrator of John B. Campbell, deceased, for services	79 68
"	11.	Paid Dr. S. M. Hayworth, for medical services rendered State troops	50 00
Dec.	10.	Paid Dr. Alex. Church, for medical services rendered State troops	106 75
		Making a total of	$611 88

And leaving in my hands a balance of ($36 42) thirty-six dollars and forty-two cents, to be accounted for.

By direction of your Excellency, I have been charged with the payment of the Militia, for services rendered during the late war. I experienced considerable difficulty in collecting together the members of the different organizations for payment, and in traveling in the border counties last spring, in their then unsettled and disorganized condition, I found it necessary, in some instances, to employ a guard for the safety of the public funds in my possession, and, considering the many difficulties encountered, I think the payment has been as complete, under the circumstances, as could be expected.

Appendix "C" exhibits the amount drawn from the Treasury for the payment of the first class of claims, as audited and allowed by the Board of Claims in their Report of last year, with the exception that some few errors in the calculations, amounting to ($317 88) three hundred and seventeen dollars and eighty-eight cents, were discovered and corrected, which increased the total amount of the claims to ($143,063 00) one hundred and forty-three thousand and sixty-three dollars.

This statement also exhibits by whom the money was drawn from the Treasury, and the county in which it was disbursed :

The rolls, as audited by the Board of Claims, amounted to	$142,745 12
Add errors in calculations	317 88
Total amount of rolls	$143,063 00
Amount drawn from the Treasury, as exhibited by Appendix "C," herewith transmitted	$142,830 30
Amount remaining in Treasury	$232 70

I would also respectfully call your Excellency's attention to Appendix "D," as exhibiting the amount paid upon each roll, the amount remaining unpaid, and the total amount of each roll :

Amount paid, as exhibited by Appendix "D"	$139,636 83
Amount remaining unpaid	3,426 17
Total amount of rolls	$143,063 00
Amount drawn from the Treasury	$142,830 30
Amount paid, as exhibited by Appendix "D"	139,636 83
In my hands to be accounted for	$3,193 47

This balance includes only the amounts on the rolls that have not been receipted for. Some of the rolls were receipted before the payment was made, but owing to the absence of some of the parties at the time of payment, the sum of ($160 33) one hundred and sixty dollars and thirty-three cents is receipted for on the rolls and not paid. This added to the ($3,193 47) three thousand one hundred and ninety-three dollars and forty-seven cents not receipted for, makes the total amount of ($3,353 80) three thousand three hundred and fifty-three dollars and eighty cents in my hands to be accounted for. This sum is, however, being continually reduced by application of parties not previously paid ; although it is quite probable that the entire amount will never be called for.

The contingent expenses of this office have been larger than I anticipated, owing to the fact that the expenses incurred in paying the militia, amounting to some four hundred dollars, were paid from this fund. The amount paid out of the appropriation for contingent expenses of this office, for services, printing, stationery, transportation, drayage, collecting arms, rent of arsenal, postage, expenses of paying militia, &c., amount to the sum of ($2,125 84) two thousand one hundred and twenty-five dollars and eighty-four cents, which exceeds the amount appropriated, one hundred and twenty-five dollars and eighty-four cents.

I sub-leased for six months, a portion of the ware-house occupied as an arsenal, and received therefor the sum of seventy-five dollars, which amount I deducted from the last quarter's rent.

During the war, the duties of this Department were very laborious, and since its close a large amount of labor has been required to settle up the business, collect the property of the State, and pay the several military organizations.

In future, however, I think the duties will be comparatively light, and I would, in this connexion, renew the suggestion made in my report as Adjutant General, whether it will not be advantageous to the State to abolish the office of Quarter-Master General, and transfer its functions to the Adjutant General.

Since the 23d of September, 1863, I have had the honor to occupy the position of Quarter-Master General. Presuming that before the period for another report will have arrived, this office will be extinguished, I trust I may be allowed the present opportunity of expressing to your Excellency my sincere acknowledgments for

the kind advice and assistance, and uniform and generous consideration and courtesy which I have received at your hands during that entire period, both in my private and official relations.

I have the honor to be,

Very Respectfully,

Your Obedient Servant,

GEORGE W. BROWN,

Quarter-Master General.
